Data is updated weekly on Friday by 12:00 CET.

Statistics are compiled mainly from data provided by authorities. While every effort has been made to ensure that all statistical information is verified, figures represent an estimate. Triangulation of information and sources is performed on a continuous basis. Therefore, amendments to figures may occur, including retroactively.

*This figure reflects cross-border movements (and not individuals). An additional 105,000 people moved to the Russian Federation from the Donetsk and Luhansk regions between 18 and 23 February.

**This figure reflects cross-border movements (and not individuals). Movements back to Ukraine may be pendular, and do not necessarily indicate sustainable returns as the situation across Ukraine remains highly volatile and unpredictable.
